

Cyber Security - Class 02 (Theory Class)

Date: September 12, 2024

Lab Exercise:

Below are the commands and their usage:

```
└─(nafis@kali)-[~]
```

```
└─$ cd ~/Desktop # Change directory to Desktop
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ mkdir test1 # Create a directory named test1
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ ls # List all files and folders in the current directory test1
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ cd test1 # Change directory to test1
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ ls # List all files and folders in test1
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ touch test.txt # Create a new text file named test.txt
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ ls # Confirm the creation of test.txt test.txt
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ open test.txt # Open the test.txt file
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ cat test.txt # Display the contents of test.txt
```

```
└─(nafis@kali)-[~/Desktop/test1]
```

```
└─$ cd .. # Navigate back to the previous directory
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ mkdir test2 # Create another directory named test2
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ ls # Verify the creation of both test1 and test2 test1 test2
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ mv ./test1/test.txt ./test2 # Move test.txt from test1 to test2
```

```
└─(nafis@kali)-[~/Desktop]
```

```
└─$ cd test2 # Change directory to test2
```

```
└─(nafis@kali)-[~/Desktop/test2]
```

```
└─$ ls # Confirm that test.txt has been moved to test2 test.txt
```
